FRED KUNDRATA RELEASES A CAMPAIGN VIDEO BIOGRAPHY DETAILING HIS PLANS FOR OHIO'S FIRST CONGRESSIONAL DISTRICT

Democratic Nominee Expresses Strong Support for Veterans, Senior Citizens, Working Families and Labor Unions

CINCINNATI – Fred Kundra, the Democratic nominee for U.S. Congress in Ohio's 1st District, released a campaign video biography offering an up-close look at his personal and professional background. The video also highlights Kundra's plans to bring positive change to the 1st District, which includes greater Cincinnati and Warren County.

"I did the video biography to give Ohio citizens a chance to learn more about who I am as not only a candidate, but also as an individual and concerned citizen," said Kundra. "I am constantly meeting voters who want to know more about me and how I plan to make a difference in the 1st District." The video does just that.

Kundra lives in Cincinnati's Pendleton area and sees, first-hand, the issues that many residents face in southwest Ohio. In making the video, Kundra spent several days traveling around the 1st District meeting working families, senior citizens, and veterans.

"Ohio needs leaders who understand the struggles of its people. I know many voters are frustrated and some are even ready to give up, but I want to let them know they do have a choice and there is a candidate with new ideas and a fresh perspective," said Kundra.

Kundra, who is a small business owner, licensed attorney, and veteran, offers an approximately three-minute snapshot of his life and congressional campaign in the video biography. Throughout, he explains why he is looking to make the leap from commercial airline pilot to U.S. Congressman.

"I am running for Congress because I want Ohio's 1st District to feel like they have someone looking out for their best interests; I want people in this area to know that someone in Congress has their back," explained Kundra.

In the video, Kundra expresses the importance of restoring the economy and repairing infrastructure in southwest Ohio. While speaking to Labor Leaders, he said, "I will address the problems of the people of the 1st District by creating a jobs leadership team that brings together labor, business, elected officials, and community leaders that will focus on jobs and investing in America's infrastructure."

Kundrata's campaign video biography is available now and can be accessed by visiting the following link:
